

Code for Posting the Census 2010 Recruiting Button

To your Website or Blog

To post a clickable image that brings visitors to www.2010censusjobs.gov, paste the following text into your Web site:

```
<a href="http://www.2010censusjobs.gov" target="_blank"></a>
```

1. Ask each Partner if they want to place a Recruiting Button on their Website.
2. You must give the Partners **both** the **code** and the **JPEG image** to make the button work.
3. The Webmaster for the organization or the Partner themselves, **must** put the JPEG image named, **RecruitingButton_Static_Blue_160x343.jpg** on their domain for the button to work.
4. When placing the code to make the button function in the html of the desired home page or page designated for the Recruiting button; look in the code where it says, **img src="http://thenameofyourwebsite.com/...**, you must change **thenameofyourwebsite** to the URL (the name of your website) of your organization to make the recruiting button work.
